## Environmental Testing

Particulars: test item vs. test requirements	
Equipment orientation:	Stationary
Operating condition:	OFF during testing
Condition of the equipment at the time of receipt	Good
Test case verdicts	
Test case does not apply to the test object .:	N/A
Test item does meet the requirement:	P(Pass)
Test item does not meet the requirement:	F(Fail)
Testing	
Date of receipt of test item:	2014.03.24
Date(s) of performance of test:	2014.04.03 to 2014.04.08

## **General remarks**

The test result presented in this report relate only to the object(s) tested.

This report shall not be reproduced, except in full, without the written approval of the Issuing testing laboratory.

"(see appended table)" refers to a table appended to the report.

Throughout this report a point is used as the decimal separator.
